Dial # 706-791-9747 / 9748 / 9746

POL AND HAZARDOUS MATERIALS

- **Set up refueling points away from surface waters**
- **Never dump or bury POL in the field or into surface waters**
- **If spill occurs:** Notify Unit OIC and Unit ECC
  Notify Range Control immediately
  Initiate 'Initial Response Action' (below)

PROCESSING PROCEDURES FOR SPILLS

- **INITIAL RESPONSE ACTION:**

I. PERSONNEL PROTECTION
Evacuate and extinguish sources of ignition

II. ASSESSMENT
Identify, 1) Material spilled and the quantity and rate of release
2) ALL resources available to respond (absorbent material)
3) Degree and extent of contamination (soil, water, etc)

III. REPORT
Information needed: 1) Location and time of spill
2) Type of material
3) Estimated quantity of material spilled
4) Name of UNIT and Incident Commander

CLEAN-UP PROCEDURES FOR SPILLS

- **Range Control will notify INSTALLATION SPILL TEAM for response to all UNKNOWN-MATERIAL SPILLS and SPILLS IMPACTING WATER RESOURCES.** (ENRMO: 791-2403/6374)

- **Spills NOT impacting water:**

I. Level 1: Small Spills (less than 25 gallons)
- The unit is responsible for small-spill cleanup of oil, diesel, gasoline or other hazardous material.
- Remove contaminated material (e.g., soil, leaves, absorbent materials) place in an appropriate container (open head drum or heavy duty plastic bags).

II. Level 2: Large Spills (more than or equal to 25 gallons)
The Installation Spill Team shall be notified by Range Control and will provide spill cleanup.
