MEMORANDUM FOR See Distribution

SUBJECT: Garrison Commander's Policy Memorandum No. 12 — Tactical Training in the Cantonment Area

1. Commanders are reminded that tactical training within the cantonment area is prohibited, except in designated Garrison Training Areas (GTAs) pre-coordinated through Range Control using the Range Facility Management Support System (RFMSS). Delineation of cantonment areas and GTAs is depicted on the attached map.

2. Conducting tactical training within the cantonment area creates potential safety and environmental hazards and could significantly impact surface and subsurface utilities such as natural gas, power, water, and sewage.

3. Exceptions may be granted on a case-by-case basis. Commanders should request exceptions through the Directorate of Public Works and provide a courtesy copy of their request to Range Control, not less than 45 days in advance of the training.

4. Any unit conducting tactical training without the proper authorization, within either the cantonment area or a GTA, will be required to move by the Military Police. Any Commander violating this policy may be subject to financial responsibility for any necessary repairs from damage to utility systems or grounds.

5. The point of contact for use of GTAs, Training Areas (TAs), and Ranges is Range Control Office, 791-5005. The point of contact for exceptions to using non-GTA cantonment area real estate is the DPW Business Office, 791-6374.
