

PRESS RELEASE

The United States Military Postal Service has assigned new geographic zip codes for units and personnel serving within Iraq. The intent of the new zip codes is to decrease the time it takes for service members and civilian personnel to receive their mail, as well as to improve postal service throughout Iraq. Family members and friends of service members and civilian personnel assigned to V Corps and 3D COSCOM units that currently use zip code 09302 and 09372 for their letters and packages are now required to use a new zip code that reflects the unit and individual's actual geographic location within Iraq. The new geographic zip codes are as follows:

Al Asad	09333
Babylon (MND CS)	09332
Balad (LSA Anaconda)	09391
BIAP	09335
Mosul (LSA Diamondback)	09334
Tallil (LSA Adder)	09331
Tikrit (FLB Sycamore)	09393
Umm Qasr (Camp Bucca)	09375
Rasheed	09390
Victory Base	09342
Camp Dogwood	09344

Mail with the zip code of 09302 and 09372 will continue to be delivered to the intended recipient even after the change is in effect, however there may be a slight delay in delivery.

For service members assigned to the below listed units, the zip code numbers will not change, and they remain as follows:

101 st AA Division	09325
1 st Armor Division	09324
4 th Infantry Division	09323
3 rd ACR	09320
2 nd LCR	09322
82 Airborne Division	09394, 09384, 09368
173 rd Airborne Division	09347
